

Setup and Prerequisites

Here's a list of instructions to setup your computer for the workshop.

Installing Julia

```
#| eval: false
curl -fsSL https://install.julialang.org | sh
```

Installing Packages

```
using Pkg
Pkg.add([
    "SpeciesDistributionToolkit",
    "CairoMakie",
    "Dates",
    "PrettyTables",
    "DataFrames",
])
```

```
using Pkg
Pkg.add([
    "SpeciesDistributionToolkit",
    "CairoMakie",
    "Dates",
    "PrettyTables",
    "DataFrames",
])
```
